PATHWAYS PROGRAMS

“AN INVESTMENT IN KNOWLEDGE
PAYS THE BEST INTEREST”

-BENJAMIN FRANKLIN

ENGINEERING PATHWAYS

The Engineering Pathway is a difficult but rewarding pathway here at Drift Net Securities. We ask each participant to identify ways to improve their world and to build marketable digital solutions using KnowWhere as the inspiration. Candidates will create an original app, product, or methodology that addresses a need in the security industry. Candidates will need to develop a plan for production, methodologies, and present their prototype in an Engineering Showcase for the chance to put ideas into production, and move into engineering roles. This pathway is by far the most extraneous and can be challenging, but also has the potential to be not only rewarding but also a step forward for both Drift Net Securities and candidates.

SOFTWARE DEVELOPMENT

- Full Stack Developer
- iOS Developer
- Mixed Reality Developer

SCIENCE AND ENGINEERING

- Data Analyst
- Data Scientist
- Artificial Intelligence
- Machine Learning

HARDWARE DEVELOPMENT

- PCB Design
- Mechanical Engineering
- Systems Development
